

WELCH, ALLEGED RIOTER, ON TRIAL

District Judge Lucien B. Wright Is Expected to Instruct Jury Today.

TO TRY NINE OTHERS

State Contends That Drumright Affair Was Planned by Ed Welch.

Special to The World.
TULSA, Nov. 4.—With the work of securing a jury completed late yesterday afternoon, the district court here this morning swung into what will probably be the most important actions of the present season—the Drumright riot cases.

The first and presumably main case was taken up today when Ed Welch, alleged ringleader of the Drumright disturbances during a recent telephone operators' strike, appeared to answer a charge of inciting riot. It is alleged that Welch, in company with other agitators, headed the mob which ran the affair to the height of disorder when a move was started to seize Mayor J. W. Nieldenhaus of Drumright, and to kill him.

Late tonight the case had reached a point where all evidence had been taken, and it was said by Assistant County Attorney Fred Spokman that Judge Lucien B. Wright would probably give his instructions to the jury early on Wednesday.

Besides Welch, nine other persons were bound over to the district court at the recent preliminary hearing here, on various charges growing out of the Drumright trouble. Welch's bond had been set at \$2,500, which he procured.

J. M. Gannaway, retiring finance commissioner, who has been associated with the municipal government since before statehood, declared he believed the new regime will be a success. He has been persuaded by Mr. Fry to work with the new administration a few weeks to get the financial department started right before taking up a new position. So has P. D. Watson, the retiring mayor, and Walter Drout, the retiring commissioner of public works.

MEMORIAL HOSPITAL AT BARTLESVILLE PLANNED

Special to The World.
BARTLESVILLE, Nov. 4.—A committee of business men have started out armed with copies of a petition addressed to the county commissioners asking them to call an election to vote \$150,000 in bonds for the erection of a county memorial hospital. Petitions for this purpose were circulated several months ago, but owing to the incompleteness of the registration lists it was found impossible to get the required number of signatures of qualified voters. Approximately 1,200 names of qualified voters must be signed to the petition.

The city last year voted \$50,000 in bonds to erect a city hospital, the bonds were sold and the lot purchased. Later, however, an effort was started to build a hospital more in keeping with the needs of the community and it was decided to make it a memorial affair in honor to the men who served in the war from Washington county. The state legislature passed a bill making it possible for the county to aid in this project, but the inability to find enough qualified voters has held up the project.
